EXPERIENCE

Wistia 2019–present
Director, Platform Engineering 2022–present

AI-NATIVE DEVELOPMENT

- Organized a cross-functional team around building a software factory.
- Shipped developer workflows that made agentic tools practical and accessible across the organization.
- Made the business case for AI-native software development and aligned priorities, practices, and adoption.

PLATFORM LEADERSHIP & OPERATIONS

- Lead three teams and 13 engineers across application platform, media platform, and site reliability engineering.
- Partner with product teams to remove developer friction and deliver platform investments that improve engineering velocity.
- Manage engineering vendors and AWS costs through spend monitoring, Savings Plans, and Marketplace purchasing.
- Drive pragmatic modernization across internal tooling, security, and engineering practices.

Engineering Manager · Managed five engineers on App Platform; introduced ADRs and led adoption of GitHub Actions, Backstage, and Storybook. 2020–2022

Staff Software Engineer · Re-architected billing from Braintree to Stripe; delivered Rails upgrades, performance work, and GraphQL features. 2019–2020

Chatterbug 2017–2019
Engineering Lead · Helped launch a WebRTC language-learning service; mentored engineers, planned iterations, improved remote communication, and maintained production infrastructure.

Agrilyst 2016–2017
Senior Engineer · Built a Rails and React data platform for indoor farms; integrated sensor hardware and worked directly with customers.

Basecamp 2011–2016
Programmer · Launched and maintained Basecamp 2 and 3; built the company's first in-house iPhone app and helped establish its native-app team.

thoughtbot 2009–2011
Web Developer · Shipped client applications, contributed to open source, and mentored apprentices.

OPEN SOURCE & COMMUNITY

Started **RubyGems.org** (as Gemcutter); maintained **Jekyll**; contributed to Ruby on Rails and thoughtbot libraries. Cofounded **CoworkBuffalo**, created **OpenHack**, organized **NickelCityRuby**, and built **Mx. Desk**.

SELECTED TALKS

Speaker at RailsConf, RubyConf, RubyNation, CodeMash, and more. Ruby Hero Award, 2010.

EDUCATION

Rochester Institute of Technology · B.S., Software Engineering; B.S., Computer Science · 2010
